

# Canada's polymer notes

Secure • Durable • Innovative

## Check to Protect: **Feel, Look and Flip**

**Feel** the smooth, unique texture of the note. It's made from a single piece of polymer with some transparent areas.

### Frosted maple leaf window

**Look** through the transparent outline.

### Large window

**Look** through the transparent area containing: a detailed metallic portrait and building, the word "Canada" which is transparent and feels slightly raised, and small numbers matching the note's value.

### Raised ink

**Feel** the raised ink on the large number, the shoulders of the large portrait, and the words "Bank of Canada" and "Banque du Canada."

### Metallic portrait and building

**Flip** the note to see these images from the front repeated in the same colours and detail on the back.

**All five denominations** have the same security features.

Watch a video  
outlining the  
security features.
